

Transporting Children Safely By Ambulance

Presented by Suzanne Grace,
Maine Child Passenger Safety Training
Coordinator, CPSTI

What Will I Learn? This program is designed to help EMS Providers practice and gain proficiency in current techniques of securing infants and children properly for safe transport in an ambulance.

In addition, those attending the program can participate in the train the trainer session that is part of each program. This will allow participants to provide this training to their EMS Students or other providers in their EMS Service.

Who Should Attend? EMS Instructors, EMS Providers, EMS Training Officers

When and Where? The program will be held across the state and is free of charge. Please register for the program of your choice by emailing or calling the associated EMS office. The program will be repeated each day and you need only attend one (2) hour program. EMS CEH and Instructor CEH will be awarded. A minimum of 10 per class is needed to hold the class, so register early.
